

LONG LIFE PAR38

Super Service Par38 lamp rated at 10,000 Hours

General Description

The Super Service Par38 lamp is designed to have an average life of up to 10,000 hours as opposed to the average 1,000 hour life of a standard Par 38 lamp. With a 10,000 hour life, the savings you can make on maintenance bills are exceptional.

The 10,000 hour Par 38 is manufactured from a one piece moulded pyrex glass making it weigh a quarter of the weight of a standard Par 38 lamp, which helps reduce wear on the lamp fixtures and suitable for indoor and outdoor use.

Our long life is achieved by using the highest grade non sag tungsten, in addition to the use of special chemical compounds inside the bulb to eliminate the impurities which cause filament failure.

Applications

The Super Service Par38 lamp is ideal for Shops, window displays, hotels, restaurants, theatres, museums, outdoor floodlighting, advertising signs, parks, gardens and security lighting.

Available in:

Product Code	Watts	Finish	Cap	Hours
